PRICE LIST

ASTERS.

TASMANIAN ASTERS are widely known as being fine well-formed flowers, on long stout stems, and have become extremely popular with all garden lovers, and the cutflower trade. The demand for this strain is ever increasing. All seed offered by us is grown on our own seed farm. Only new, best quality seed is supplied.

5,000 lots and over special quotation.

TULIPS

THIS season we have already planted upwards of 1,000,000 bulbs, and we expect to have a particularly fine lot to offer to the trade. These bulbs are available from January until the middle of March, and we advise those wishing to obtain first-grade quality to book well in advance. Amongst the varieties grown are:

Darwins: Blue Bird, City of Haarlem, Dream, Edmee, Clara Butt, Europe, King Harold, Pride of Haarlem, The Bishop, Harry Veitch and Viking.

Parrots: Belle Jaune, Perfecta, Constantinople, Feu Brilliant, Cafe Brun.

Cottage: Inglescombe Pink, Gesneriana Major and Caledonia.

Breaking or Striping

Although every care is taken, this cannot be prevented. Tulip bulbs may be sent out from the best self colors, and they may become striped, especially in the warmer climates. This is believed to be caused through the agency of an aphis, and investigations both in England and other parts of the world are now in progress, endeavoring to discover a remedy for this trouble.

However, many beautiful effects are obtained by the marvellously patterned coloration, caused by this striping, the blooms in their brilliant colorings being very striking.

STOCK, GIANT PERFECTION, TEN WEEK.
